Introduction and Recounting Blessings and Prayers

It is a grand bestowal of Allah on his slaves that he revealed his Holy Quran on the world. It is a great obligation of the Prophet Muhammad (Saw) that he conveyed each and every letter of it to his Ummah in spite of strong opposition of the enemies of Allah. He taught Sahabah and they taught tabe'in and this way the process of transferring it continued. It is a further grace of Allah that He has taken Himself the responsibility of preservation of Al-Quran. Otherwise it was impossible for human beings to protect it. Allah says:

إِنَّا نَحْنُ نَزَّلْنَا الذِّكْرَ وَإِنَّا لَهُ لَحَافِظُونَ

(“I have descended the Holy Quran and I will protect it”)(Surah Hijr : 9)

Thus when Allah is the protector and caretaker of this holy Quran then who has power to distort it. However, it is also a fact that Allah has made His slaves having faith in them save it. They are actually divine soldiers deputed to protect this *amanah* (entrusted thing). As Quran has a specific relation with Allah in the same way servants of Quran have also a special position. Thus Quran as well as its servants both enjoy unparalleled favour of Allah . It is why revolutions took place, rulers were changed, empires were ruined, ideas and thoughts were upset, languages and cultures were mutated,

cycle of days and nights went on, deserts were converted to inhabitations, inhabitations were deserted but the thing which remained unchanged is nothing but the Words of Allah, the Quran.

It is not an old story that Muslim rulers were overthrown from India. There was a great danger to Indian Muslims to be segregated from Islam but the light of Quran continued to shine. *Ulemah* (Religious scholars) were massacred, *Huffaz* (Quran-conner) were assassinated, *Madrasas* were ruined and after 1857 Mullahs were almost extinguished. However, Quran was intact and a few persons having Quranic spirit were alive. Thereafter in a very short time *Madrasas* began to be erected to protect Islam on the land of India. Dedicated Muslims started to teach *Ummah* instead of lack of means leaving all comforts of wordly life. Soon a huge army became ready to protect and serve Islam.

At first a madrasa was established in Deoband which later on led the community to follow its course. The very Madrasa is now known as DarulUloom, Deoband.

The earliest *Ulemah* of DarulUloom, Deoband were deeply concerned to *Ummah* and had been in a state of commotion for her pitiable condition. They trained a number of desciples and sent them to the nook and corner of the country. They stayed in the mosques without any facility and showered their benevolence to Muslims in general. Bihar was not an exception.

In the very life of Haji ImdadullahMuhajirMakki, a spiritual leader and patron of many noble beings of Deoband, his renown caliph, MaulanaMunawwar Ali Darbhangwi

established a religious institution, Madrasa Imdadia, in his native place Rasoolpur, Nishta of District Darbhanga after his mentor's name in 1311 H, just after 28-30 years of the birth of DarulUloom, Deoband. Thus the said Madrasa came into existence and functioned under the patronage of Deoband. Excellent teachers were appointed from there and it grew and progressed a lot in a short time. Now it was felt to shift the Madrasa to a central place and as a result it was brought to Darbhanga city. RasoolpurNishta situated 30 Kms. away from Darbhanga city was deserted. Later a number of Madrasas were established in the state of Bihar. Gradually famous Ulemah passed away. Only their glorious contributions remained to be reckoned. Such Madrasas continued to function on the line of DarulUloom, Deoband getting no aid from their respective governments.

But recently responsables of a number of Madrasas have handed over them to the government and in consequence they have lost their dignity and now Muslim community has no faith in them. A non-Muslim government is not supposed to look after Islamic religious affairs. Though it enhanced the salaries of *Ulemah*, religiousness could not be maintained. Rules and regulations were passed but number of students decreased. Wherever the government interfered, the fountain of Islamic teachings dried. It needs not any proof and evidence. Everybody can see its consequences with his open eyes.

Now it is being realized that the Madrasas should be freed from the clutches of the government so. That they could be able to deliver true Islamic

education and build up such generations who would have Islamic wisdom and scholarly indepth and whose aim should be the service of Islam only for the pleasure of Allah. It is a harculian task. In this materialistic world which is full of greed and pump and show, a concept of such madrasa is like a dream of a crazy man. But some people of Singhwara block of Darbhanga decided to do so they took sincere Ulemahs into confidence, got wishes of their elders and laid foundation of a madrasa in Shakarpur, Bharwara in the vicinity of Nishta, Darbhanga, a thickly populated Muslim area, in 1404 H at the initative of MaulanaMahmood Ahmad, a disciple of Allama Anwar Shah Kashmiri and grandson of MaulanaMunawwar Ali Darbhangwi, founder of the aforesaid MadrsaImdadiah, under the leadership of QaziMujahidul Islam. Particularly MaulanaQuamruzzama was very active to establish the said Madrasa.

Either they are Islamic or educational institutions, reformative or milli organizations, any social or welfare work cannot be performed without ideological unity and mutual co-operation. Madrasa Islamia is an illustrative example of this universal fact. A handful of persons, particularly MaulanaQuamruzzamahas been actively participating in its development and setting examples of sacrifices. May Allah reward them properly! Whenever history of the Madrasa is written they must be paid homage.

Indian Muslims are generally poor people, particularly Muslims from Bihar are the poorest among them. However they are deeply concerned to

their religion and are prompt to do the necessary to their best. It is to be mentioned here that Madrasa Islamia does not accept any aid from the government. On the other hand it has competent and experienced teachers. Teaching standard is exemplary and so students from all over Bihar rush to get admission. At present it has capacity to support about one thousand students. A huge amount required for their boarding and fooding. However a large number of candidates are refused to be admitted due to shortage of hostels and classrooms. The existing mosque is two-storied yet but needs more expansion. Also for expansion of the Madrasa a lot of money is needed. Philanthropists are requested to contribute. They will get perpetual reward from Allah here and hereafter. They are also invited to visit the Madrasa in person to get first hand information. In case they don't have time to come herethey should trust the *Ulemah* some of whose observations and impressions are written here. They are the most respectful, dignified and trustworthy *Ulemah* of the sub-continent.

Significance of Madrasas in the eyes of Great Islamic Scholars

What MaulanaAbulKalam Azad says about Madrasas

Here is a group of students before you who has preferred Deen over worldly things. It has left the best of comforts only in compliance of Allah's ordains being true Indians. It has been facing all the sufferings like starvation passing nights on the earthen floors in severe cold. In India education is meant for earning bread and butter and nothing else. These huge and splendid educational buildings are actually neo-colonies of the west, full of greedy people who believe education would enable them to earn more and more. They are not genuine aspirants of knowledge. However light of true intellectualism has always been brightening in the darkness generated by degradation and insult of knowledge. These groups of knowledge seekers in India getting education in different *Arabic Madrasas* are promoting this noble cause. The spirit behind it has no material lust except educational pursuit and Allah's pleasure. All over India the only group seeking education for the sake of knowledge is the group of students studying in different *Arabic Madrasas*.

(MaulanaAbulKalam Azad)

A Deep Consideration will open the Facts

Frankly speaking today we feel a need of *Arabic Madrasas* to a great extent. There will be much more need of these ones in the coming days, in a changing scenario of India. They will remain epi-centres of Islam though like today people will keep themselves engaged in getting ranks and position by flattering the authorities but these mullahs, devotees of knowledge, will be the watch – dogs.

It is, therefore, a strict obligation of Muslims to manage and run madrasas to the best of their efforts.

In case if anybody does not find any positive in these madrasas, it is of course not of less importance that they impart education to the poor sections of the society with food and shelter. They get a chance to improve their lives though a little bit and this rising tendency continues in their next generations.

This critical appraisal will open our eyes to realize how important these madrasas are!

(HazratMaulanaSulemanNadvi)

Witness of a non-Muslim

Sometimes ago during the budget session of U.P. Assembly Mr. Baliwal stated in his address.

“The students of our schools if do not succeed, suicide by throwing themselves out from

the top of the QutabMinar or any bridge because they are not taught how to live and what to live for. They do not realize the aims of their lives”

“In contrast, Deoband is a town in my constituency where there is an Arabic university, namely DarulUloom, Deoband. The students studying there live in a simple way and after completion of their education they prove themselves good Indian citizens. They do not emburden the government . They become self-dependents.”

This statement is enough to show how much these Madrasas are important in comparison to modern educational institutes.

Deeni Madrasas **(In the eyes of AllamaIqbal)**

The famous literateur and poet, Hakeem Ahmad Shuja, was a deep fan of AllamaIqbal. He has written about AllamaIqbal in his book “KhoonBaha” that in a sitting he had talked of Deeni madrasas and makatib. At this AllamaIqbal told to him with sympathy and melancholy “I was having the same feelings in my young age like you and wished the same which you desire now that a revolution is must to bring Muslims at par with the western civilized and cultured nations.

However after visiting Europe I have changed my opinion. Leave these madrasas as they are. Let the poor Muslim children study in them. If they fail to become mullahs and darwesh you know what would happen? I have seen the outcome with my eyes. If Indian Muslims do not have effect of these madrasas they would lose their seats and there

would be no followers of Islam and signs of their civilization. All would vanish except the remains of TajMahal of Agra and Red Fort of Delhi as happened in Spain where we find no trace of Muslims and their civilization except the ruins of Gharnata and Qartaba, al Hamra and Babul Ikhwatain.”

Merits & Demerits of the Syllabi of Madrasas

The only demerit of the syllabi of madrasas is that they do not get any appreciation from the government. It is just a difference of one’s approach to take it as a merit or demerit.

My honest opinion is that it is not a demerit of the syllabi rather a merit of it. The syllabi of the governmental institutions of education are benefiting thousands of people to make them able to earn money. Where a few people are inclined to learn their religion through the syllabi of madrasas so that they get success in the life hereafter.

If the proposed syllabi of the government are adopted in Deeni madrasas, as a result of which thousands of people even after getting higher degrees from the governmental institutes are wandering in search of jobs, students of the Madrasas will surely lose the opportunity to learn their religion as well as their livelihood.

It is therefore, advisable to leave these madrasas in their state and not to disturb them. Now those who are keen to receive governmental amenities are hereby suggested to go and join

modern educational institutes. To change the essence of these madrasas on the line of modern educational institutes will be an impardonable crime of the history.

It has become a prestigious Madrasa due to nice management and good teachings.

**(HazratMaulanaSalim,

Secretary,

Madrasa Islamia, Shakarpur, Bharwara is not only an institute but aa phenomenon of the necessity of time and space of this area. Most of the Madrasas of Bihar have gone in the ugly clutches of the government. In such a situation it was an urgent need to establish an esteemed Madrasa free from the malafide interference of the government. *Alhamdulillah*, this dream is coming true in the shape of the said madrasa.

**(HazratMaulanaEjaz Ahmad, Principal
Madrasa Shaikul Islam, Shaikhopur, Azamgarh,
U.P.)**

It is a fact that this Madrasa is blooming day and night with sincere efforts of its authorities. It has a bright prospect. It stands in the top list of selective Madrasas in respect of its strength and standard.

By the grace of Allah, in recent years people are taking special interest to establish and manage religious educational institutions in Bihar. I was pleased to meet young, energetic, courteous and dedicated teachers. They are learned and dutiful. They also have missionary zeal. Teaching in all classes is remarkable.

(Maulana Md. Anisur Rahman, Chairman, Haj Committee & Secretary Imarat-e-Shariah, Patna)

A delegation of Asian Muslims Organization constituting of the general secretary, Shaikh Daej Khalif-u-Shamri and Maulana Badrul Hassan Qasmi inspected Madrasa Islamia, Shakarpur, Bharwara.
